West Volusia Regional Chamber of Commerce  
Board of Directors  
132 Treemonte Drive  
Orange City, FL 32763

Dear Board of Directors,

It is an honor to write this letter accepting the nomination as a potential member of the Board of Directors of the West Volusia Regional Chamber of Commerce.

I understand that considerable responsibility for the current and future direction of the Chamber is of primary importance to the Board and certainly feel capable of the challenge.

As a current and active member of the Chamber, I do participate in events and meetings on a regular basis and see firsthand the many benefits, both business and personal, that we all enjoy. To increase those benefits for all members, one vision is to continue to foster that great feeling of camaraderie that is often mentioned by members and guests. Second is to continue to grow by bringing in new members and perhaps just as important is to find a way to encourage participation by some of the less active current members. Also, continuing to be involved in Chamber exclusive events and other events open to the public reinforces the Chambers member's message to do business with our companies because of our commitment to community involvement.

If elected to become a Board member, I'm eager to begin fulfilling my new duties. I look forward to your decision.

Sincerely,

Gary Sturgeon
